

Update as at Thursday 6th August 2020

Dear Members

As you know Wallsend Diggers had to shut down, deep clean and staff who were on duty were asked to get COVID tested and isolate for 14 days. The same applied to Members and guests who were on the Premises at that time.

I am very pleased to report that all 42 Staff who were asked to be tested have received their results. All Staff Tested Negative for COVID19. We are very pleased that they are all healthy and we look forward to them returning to work after their isolation period.

The feedback that I have received so far from Members is, at this stage, those that have been tested have returned Negative results. I sincerely hope that this continues and that all Members and guests are safe and well.

Once again, I'd like to thank everyone for their positive feedback and goodwill gestures. Wallsend Diggers is a clean environment and we look forward to your patronage.

Yours Sincerely

John Hume
Chief Executive Officer
